

write a user's fact = override only its rows
(Δ bpb on held-out unrelated text = +0.0001)

1. Content — each user's facts as local Engram-row overrides

Engram memory table (addressed by trigger N-gram)

frozen Mini-Engram backbone

2. Reasoning skill

one shared LoRA — trained once across other users, amortized over everyone

← the same skill serves every user above →
